

Art- Subject Roadmap

Vision:

We encourage students towards a lifelong love for art whilst giving them the experience of working like artists. Students will explore, develop and share their creative aspirations within an thriving and inspirational environment.

It is our aim within Art, to give students a broad experience into the world of art. Students of all abilities and backgrounds have the opportunity to explore their creative aspirations and develop skills within the subject. As students develop their artwork we encourage the sharing of the ideas they wish to convey about themselves, their community and the wider world, whilst respecting the diverse ideas and styles of others. We are very keen to open up a real love for the subject in an environment where they can discover, create and enjoy.
