

Geography Road Map

Geography is challenging, motivating, topical and engaging. In our diverse society students need, more than ever before, to understand other people and cultures.

The Geography curriculum is planned to allow students to think critically about the world they live in. By studying a range of people and places, students will have a greater understanding of the world we live in and issues across the globe in order to become more empathetic. The Geography curriculum will enhance pupils locational knowledge and develop an understanding of geographical similarities, differences and links between places through the study of human and physical geography.
