

Project Objectives:

- Develop a range of technical art skills including one point and two point perspective.
- Improve your understandings of how to create a sense of perspective and the rules used to achieve this.
- Discover painting effects and experimental techniques to achieve exciting outcomes.

Key words

- **Perspective** – Things appearing smaller as they get further away creates a sense of depth.
- **Depth** – Depth in a painting is similar to distance or space. Think of it as how far could you walk into the distance of the painting.
- **Horizon** – the point where the sky meets land

Techniques for painting a tree with watercolour:

- 1) Loosely paint with a light green a circular shape with a flat bottom.
- 2) Add a darker green to the lower and left sides of the foliage.
- 3) Add a brown trunk and branches in between the gaps that grows up and out in direction.

Final Response:

You will be designing and painting a one point perspective cityscape:
