

Dear Parent/Carer,

Several years ago, we successfully introduced a payment system, which gave parents/carers the opportunity to give a financial contribution towards the materials and ingredients used within their technology lessons. This enabled students to take home the amazing products made across all curriculum areas of technology and take some of the organisational skills off your hands. This has been a great success with many parents commenting how useful it has been. Previously students have had to bring in their own ingredients and pay for products once completed.

A contribution of £24.00 will ensure that your student will be able to bring home:

- A beanie fleece hat with applique
- A non- traditional vase
- At least six dishes to serve 2 people generously, including calzone, congress tarts and swiss roll

A thorough break down of costs can be made available upon request and you obviously have the option to opt out of this agreement, whereby you need to continue to provide all ingredients for practical catering lessons as well as purchase products made.

To opt into this scheme, please pay for YR9 Technology 2024/2025 via SCOPAY.

If you have difficulties making payment, please contact finance@fleggoa.co.uk

Kind Regards

A Williams-Barry

Teacher of Technology
